Atty. Docket No.: 10141/2 Amdt. dated April 28, 2004

Reply to Office Action of January 28, 2004

AMENDMENTS TO THE SPECIFICATION

Please replace the present title with the following rewritten title:

Process of making an embossed polyolefin film

Please replace the first paragraph on page 1 with the following amended paragraph:

This divisional application is filed under 37 C.F.R. 1.53(b), of parent application serial number U.S. 09/280,475, which was filed March 30, 1999, and is now U.S. Patent No. 6,391,425, the entirety of which is hereby incorporated herein by reference.

Please replace the present Abstract of the Disclosure with the following amended Abstract of the Disclosure.

An embossed, cast polyolefin film or an embossed, oriented polyolefin film comprises includes: (a) a core layer comprising including a propylene polymer; (b) an embossed outer layer on one side of the core layer, the embossed outer layer comprising including an olefin polymer capable of being embossed; and (c) an additional outer layer on a side of the core layer opposite to the embossed outer layer, the additional outer layer comprising including an olefin polymer. The embossed film can then be metallized to produce a shiny, metallic film having a prismatic or holographic appearance.
